MINE GAMES

The Great Outdoors

MINE GAMES' beautiful accommodations are matched by a captain and crew well versed in attentive and professional service. Spacious decks beckon guests outdoors for a wide range of activities from watersports to fine dining. The flybridge is a secluded spot ideal for sunbathing, and a refreshing dip in the Jacuzzi or mixed drinks from the bar. A large swim platform turns into a beach area, for easy access to the ocean waves.

Main Salon and formal Dining

The main-deck salon and dining room comfortably accommodates 12 guests. Large windows bring in plenty of natural light during the daytime, while accent lighting emphasizes the custom architectural woodwork crafted from American cherry and the intricate stone floors with a classic vintage feel.

Luxurious Accommodations

MINE GAMES accommodates 12 guests in five staterooms. The four lower-deck guest accommodations include three nearly identical and spacious king-bed staterooms, all ensuite baths, ensuring that charter guests experience equal comfort. The spectacular on-deck owner's suite has panoramic forward views and his and hers bathrooms.

Elegant Skylounge

The elegant skylounge, connected to a private terrace, is perfect for an after-dinner drink, board game or conversation. The entertainment system provides music and movies on demand in all common areas and staterooms.

Specifications
